

## INDEX OF GLASAIR ADVISORY PUBLICATIONS

The purpose of this index is to provide an up-to-date list of all **service bulletins** and **service letters** related to the Glasair line of aircraft. A list of current **advance notices of revision (ANORs)** to the instruction manuals is also included, as well as a backup index of published **revisions**.

We recommend keeping this index and all Glasair advisory publications together in a three-ring binder for easy reference.

**Note:** The Glasair Super II series of aircraft was originally referred to as the "Super II-S." We have dropped the "-S" for simplicity, but any references to the Super II-S apply equally to the Super II and vice versa.

### SERVICE BULLETINS

The following index lists all service bulletins issued to date for the Glasair line. Not all service bulletins apply to all Glasair models or to all kits of a given model; note the specified applicability of each one. For service bulletins that have been revised, the revision letter is given after the service bulletin number; the date given for such bulletins is the date of the revision. **Entries for mandatory service bulletins are indicated in boldface.**

<i>No.</i>	<i>Subject</i>	<i>Date</i>	<i>Applicability</i>
1	a) Hydraulic pump solenoids b) Nose gear scissors c) Nose gear fork mounting bolt	9/6/84	I RG landing gear S/N 001-070
