

As part of the next stage of our growth, we are now seeking an AIRCRAFT ASSEMBLY MECHANIC to join our team. The successful candidate will be added to a team of mechanics responsible for the assembly of various stages of a general aviation aircraft. The starting wage for this position is \$14.00 - \$16.00 per hour depending on experience, plus health benefits. Specific responsibilities of this position will include:

- Manufacture composite parts, using wet layups within a mold.
- Trim and prepare parts for installation
- Bond and bodywork composite parts and structures
- Airframe completion including installation of wings, tail and all control surfaces on fuselage.
- Systems installation including control system rigging, fuel lines and wiring.
- Firewall forward completion including engine, induction, exhaust and propeller installation.
- Assist in the development of future aircraft as well as design changes to existing fleet.

To be considered for this challenging role you will need the following:

- Mechanical experience of any type
- Enthusiasm to learn
- A drive to follow a task to the finish line and make sure it is done correct and on schedule.
- Dependability
- High energy level
- Ability to multitask
- Ability to work at both a fast pace and high quality level.
- Team Spirit
- High mechanical aptitude
- Composite Experience
- Sheet Metal Experience
