

Airframe and Powerplant Mechanic

As part of the next stage of our growth, we are now seeking an A&P aircraft mechanic to join our team. The successful candidate will be responsible for assisting customers with assembly of their aircraft at our Certified Aircraft Assembly Center. The starting wage for this position is \$16.00 – \$18.00 per hour based upon experience, plus health benefits.

Specific responsibilities of this position will include:

- Assembly of aircraft from manufacturing components and assembly to engine start-up.
- Airframe completion including installation of wings, tail and all control surfaces on fuselage.
- Systems installation including control system rigging, fuel lines and wiring and avionics.
- Firewall forward completion including engine, induction, exhaust and propeller installation.

To be considered for this challenging role you will need the following:

- A&P license
- Enthusiasm for learning
- Drive to follow a task to the finish line and make sure it is done correctly and on schedule.
- Dependability
- High energy level
- Ability to multi-task
- Ability to work at both a fast pace and high quality level.
- Ability to retain and apply information to tasks
- Team Spirit
- Strong interpersonal skills
- Exceptional technical aptitude
- High mechanical aptitude
- Composite Experience is a plus
- Sheet Metal Experience is a plus

Job Type: Full-time

Salary: \$16.00 to \$18.00 /hour
